Subject: RE: Portland Harbor HHRA fact sheet

The only issue I have is with the section "How are people exposed to contaminants". There are 3 pictures (fish consumption, direct contact and breastfeeding infant) but the text only discusses the first two. There are 2 paragraphs discussing direct contact, which is really not a big issue at this site. I would suggest eliminating the second paragraph on direct contact and adding a paragraph on breastfeeding infant exposure.

Otherwise, looks great!

All,

Attached is the revised fact sheet.

Unless there are other significant comments, we plan to finalize and print on Thursday.

Next steps:

Thursday- Send R10 web team fact sheet and Final HHRA report to post to website.

April 30, after webposting - GovDelivery announcement of availability of Fact sheet and locations for viewing report.

Thanks
